

Other Construction Management Personnel: The Proposer shall identify other Construction Management Personnel for the Project. This means Construction Management personnel who will provide services that are supportive or ancillary to the services provided by the Key Construction Management Personnel. For each phase of the Project, the Proposer shall indicate the total estimated hours per title. The total estimated hours per title shall not include any overtime hours.

Other Construction Management Personnel: The Proposer may add an additional page if necessary.

Certification: By signing in the space provided below, the Proposer certifies that (1) the individuals proposed as key Construction Management Personnel as currently employed by the Proposer, and (2) if award of the Agreement is made to the Proposer, it will assign such individuals to the Project as Key CM Personnel for the entire duration thereof.

The Proposer understands that if an award of Agreement is made, the City was induced to make such award based upon the Proposer’s certification that it will assign to the Project the individuals proposed as Key Construction Management Personnel. The Proposer understands that the Construction Phase field personnel and the Project Manager shall not be assigned to any other related project(s) under construction at the project site, including but not limited to the Marlin Stadium. The Proposer further understands that failure to provide such individuals as Key Construction Management Personnel shall be considered a material breach of the Agreement and grounds for termination for cause.
