STATE OF FLORIDA
GRANT AGREEMENT
PURSUANT TO LINE ITEM 1668A OF THE 2014-2015 GENERAL APPROPRIATIONS ACT

THIS AGREEMENT is entered into between the STATE OF FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION, whose address is 3900 Commonwealth Boulevard, Tallahassee, Florida 32399-3000 (hereinafter referred to as the "Department") and the CITY OF MIAMI, whose address is 444 SW 2nd Avenue, Eighth Floor, Miami, Florida 33130 (hereinafter referred to as "Grantee"), local government, to provide financial assistance for the Wagner Creek/Seybold Canal Dredging/Restoration Project.

In consideration of the mutual benefits to be derived herefrom, the Department and the Grantee do hereby agree as follows:

1. The Grantee does hereby agree to perform in accordance with the terms and conditions set forth in this Agreement, **Attachment A, Grant Work Plan**, and all attachments and exhibits named herein which are attached hereto and incorporated by reference. For purposes of this Agreement, the terms "Grantee", and "Recipient" are used interchangeably.
2. This Agreement shall begin upon execution by both parties and remain in effect for a period of fifteen (15) months, inclusive. The Grantee shall be eligible for reimbursement for work performed on or after the date of execution through the expiration date of this Agreement. This Agreement may be amended to provide for additional services if additional funding is made available by the Legislature.
3.
 - A. As consideration for the satisfactory completion of services rendered by the Grantee under the terms of this Agreement, the Department shall pay the Grantee on a cost reimbursement basis up to a maximum of \$200,000. The parties hereto understand and agree that this Agreement does not require a match on the part of the Grantee.
 - B. The Grantee shall be reimbursed on a cost reimbursement basis for all eligible project costs upon the completion, submittal and approval of deliverables identified in **Attachment A**, in accordance with the schedule therein. Reimbursement shall be requested utilizing **Attachment B, Payment Request Summary Form**. To be eligible for reimbursement, costs must be in compliance with laws, rules and regulations applicable to expenditures of State funds, including, but not limited to, the Reference Guide for State Expenditures. All bills for amounts due under this Agreement shall be submitted in detail sufficient for a proper pre-audit and post-audit thereof. A final payment request should be submitted to the Department no later than sixty (60) days following the completion date of the Agreement, to assure the availability of funds for payment.
 - C. The State Chief Financial Officer requires detailed supporting documentation of all costs under a cost reimbursement agreement. In accordance with the **Attachment C, Contract Payment Requirements**, the Grantee shall comply with the minimum requirements set forth therein. The Payment Request Summary Form shall be accompanied by supporting documentation and other requirements as follows for each deliverable:
 - i. Contractual (Subcontractors) - Reimbursement requests for payments to subcontractors must be substantiated by copies of invoices with backup documentation identical to that required from the Grantee. Subcontracts which involve payments for direct salaries shall clearly identify the personnel involved, salary rate per hour, and hours/time spent on the project. All multipliers used (i.e. fringe benefits, overhead, and/or general and administrative rates) shall be supported by audit. If the Department determines that multipliers charged by any subcontractor exceeded the rates supported by audit, the

Grantee shall be required to reimburse such funds to the Department within thirty (30) days of written notification. Interest on the excessive charges shall be calculated based on the prevailing rate used by the State Board of Administration. For fixed price (vendor) subcontracts, the following provisions shall apply:

- a. The Grantee may award, on a competitive basis, fixed price subcontracts to consultants/contractors in performing the work described in Attachment A. Invoices submitted to the Department for fixed price subcontracted activities shall be supported with a copy of the subcontractor's invoice and a copy of the tabulation form for the competitive procurement process (Invitation to Bid or Request for Proposals) resulting in the fixed price subcontract.
 - b. The Grantee may request approval from the Department to award a fixed price subcontract resulting from procurement methods other than those identified in the paragraph above. In this instance, the Grantee shall request the advance written approval from the Department's Grant Manager of the fixed price negotiated by the Grantee. The letter of request shall be supported by a detailed budget and Scope of Services to be performed by the subcontractor. Upon receipt of the Department Grant Manager's approval of the fixed price amount, the Grantee may proceed in finalizing the fixed price subcontract.
 - c. All subcontracts are subject to the provisions of paragraph 12 and any other appropriate provisions of this Agreement which affect subcontracting activities.
- D. In addition to the invoicing requirements contained in paragraphs 3.B. and C. above, the Department will periodically request proof of a transaction (invoice, payroll register, etc.) to evaluate the appropriateness of costs to the Agreement pursuant to State and Federal guidelines (including cost allocation guidelines), as appropriate. This information, when requested, must be provided within thirty (30) calendar days of such request. The Grantee may also be required to submit a cost allocation plan to the Department in support of its multipliers (overhead, indirect, general administrative costs, and fringe benefits). State guidelines for allowable costs can be found in the Department of Financial Services' Reference Guide for State Expenditures at <http://www.fldfs.com/aadir/reference%5Fguide>.
- E.
 - i. The accounting systems for all Grantees must ensure that these funds are not commingled with funds from other agencies. Funds from each agency must be accounted for separately. Grantees are prohibited from commingling funds on either a program-by-program or a project-by-project basis. Funds specifically budgeted and/or received for one project may not be used to support another project. Where a Grantee's, or subrecipient's, accounting system cannot comply with this requirement, the Grantee, or subrecipient, shall establish a system to provide adequate fund accountability for each project it has been awarded.
 - ii. If the Department finds that these funds have been commingled, the Department shall have the right to demand a refund, either in whole or in part, of the funds provided to the Grantee under this Agreement for non-compliance with the material terms of this Agreement. The Grantee, upon such written notification from the Department shall refund, and shall forthwith pay to the Department, the amount of money demanded by the Department. Interest on any refund shall be calculated based on the prevailing rate used by the State Board of Administration. 20. The Grantee covenants that it presently has no interest and shall not acquire any interest which would conflict in any manner or degree with the performance of services required.
21. Reimbursement for equipment purchases costing \$1,000 or more is not authorized under the terms and conditions of this Agreement.
22. The Department may at any time, by written order designated to be a change order, make any change in the Grant Manager information or task timelines within the current authorized Agreement period. All change orders are subject to the mutual agreement of both parties as evidenced in writing. Any change, which causes an increase or decrease in the Grantee's cost or time, shall require formal amendment to this Agreement.

25. This Agreement has been delivered in the State of Florida and shall be construed in accordance with the laws of Florida. Wherever possible, each provision of this Agreement shall be interpreted in such manner as to be effective and valid under applicable law, but if any provision of this Agreement shall be prohibited or invalid under applicable law, such provision shall be ineffective to the extent of such prohibition or invalidity, without invalidating the remainder of such provision or the remaining provisions of this Agreement. Any action hereon or in connection herewith shall be brought in Leon County, Florida.
26. This Agreement represents the entire agreement of the parties. Florida Coastal Office

ATTACHMENT A PROJECT WORK PLAN

Project Title: The Wagner Creek/Seybold Canal Dredging/Restoration Project

Project Location: The Wagner Creek/Seybold Canal is a tributary of the Miami River. The Miami River flows into the Biscayne Bay Aquatic Preserve, and the Atlantic Ocean

Project Background: The Wagner Creek/Seybold Canal Restoration Project will enable the City of Miami to responsibly dredge these waterways, which are designated as an Area of Critical State Concern and an impaired water body.

Wagner Creek, which merges into the Seybold Canal, receives stormwater runoff from the surrounding C-6 Basin. This project qualifies as a priority water body identified in the South Florida Water Management District Surface Water Improvement and Management Plan for Biscayne Bay (1995; 2003). Wagner Creek, a 303(d) listed water body, and Seybold Canal, an Outstanding Florida Water that is part of the Biscayne Bay Aquatic Preserve, will provide critical stormwater conveyance through a densely populated urban area. Historical stormwater discharge into Wagner Creek and Seybold Canal has resulted in elevated sediment concentrations of dioxins, total PAHs, and metals. These sediments can also be a source of nitrogen and phosphorus to the water column. It should be noted that Water quality impairments within Wagner Creek have been verified using the Impaired Surface Waters Rule (IWR) and include copper, mercury (in fish tissue), coliforms (fecal and total), and dioxin (in fish tissue). In addition, the Draft Walk the WBID Exercise for Wagner Creek (WBID 3288A) was completed by the Florida Department of Environmental Protection in February 2011 and focused on the identification of potential sources of fecal coliform impacting Wagner Creek. Removal of the debris from Wagner Creek during the project will contribute to coliform reduction (86% of in-stream concentrations) as identified by the Total Maximum Daily Load for Wagner Creek in order to meet the State of Florida water quality standards.

Removal of these contaminated sediments, accumulated over time from non-point sources, will reduce future contaminant loadings downstream into the Miami River which drains a considerable portion of the City of Miami. Dredging of Wagner Creek has been identified as an action item in the process to improve water quality in the Miami River (MRC, 2002). The City of Miami and Miami-Dade County have been implementing or completed stormwater and drainage-related action items as noted in the Miami River Basin Water Quality Improvement Report (MRC, 2002), including retrofitting old positive drainage systems in remaining areas of the Miami River, rebuilding downtown storm sewers, and conducting Flagami/West End storm sewer improvements.

Project Description: The dredging/restoration project will result in the removal of approximately 127,994,000 lbs. (~64,000 tons) of contaminated sediment, improving the water quality conditions of Wagner Creek and Seybold Canal and reducing the pollutant load on the Miami River and Biscayne Bay. In addition, the project will result in the removal of approximately 3,630 tons of sediment containing dioxin (≥ 1 ppb), 470 pounds of sediment containing mercury and 42,484 pounds of sediment containing copper during the restoration project. Mass reductions of the primary nutrient pollutants within Wagner Creek and Seybold Canal during this one time dredging event would be 31,932 pounds of total nitrogen and 383 pounds of total phosphorus. Dredging the waterways will have many positive impacts to Miami's local communities and South Florida's natural aquatic resources. The project will remove harmful contamination (i.e., dioxins), mitigate flooding to adjacent basins by increasing the stormwater conveyance of the waterway, improve navigation along the Seybold Canal, increase safety and provide new economic development opportunities in an area that is currently environmentally and economically impaired.

Task 1: Dredging/Restoration

Description: Conduct dredging of contaminated soils in the Wagner Creek and Seybold Canal waterways to reduce pollution within the Miami River and Biscayne Bay.

Deliverable: Grantee will submit a copy of all permits and waste manifests as confirmation of work performed.

Timeline for completion: Task 1 will be completed in month 15.

Contractual: \$200,000 (DEP Funding)

Performance Standard: The Department's Grant Manager will review photographs, waste manifests, and the regulatory agency sign off of the work performed to ensure that all work is completed in accordance with the Department, Army Corp, and DERM permits.

Contract Payment Requirements Florida Department of Financial Services, Reference Guide for State Expenditures *Cost Reimbursement Contracts*

Invoices for cost reimbursement contracts must be supported by an itemized listing of expenditures by category (salary, travel, expenses, etc.). Supporting documentation must be provided for each amount for which reimbursement is being claimed indicating that the item has been paid. Check numbers may be provided in lieu of copies of actual checks. Each piece of documentation should clearly reflect the dates of service. Only expenditures for categories in the approved contract budget should be reimbursed.

Listed below are examples of the types of documentation representing the minimum requirements:

- (1) Salaries: A payroll register or similar documentation should be submitted. The payroll register should show gross salary charges, fringe benefits, other deductions and net pay. If an individual for whom reimbursement is being claimed is paid by the hour, a document reflecting the hours worked times the rate of pay will be acceptable.
- (2) Fringe Benefits: Fringe Benefits should be supported by invoices showing the amount paid on behalf of the employee (e.g., insurance premiums paid). If the contract specifically states that fringe benefits will be based on a specified percentage rather than the actual cost of fringe benefits, then the calculation for the fringe benefits amount must be shown.

Exception: Governmental entities are not required to provide check numbers or copies of checks for fringe benefits.
- (3) Travel: Reimbursement for travel must be in accordance with Section 112.061, Florida Statutes, which includes submission of the claim on the approved State travel voucher or electronic means.
- (4) Other direct costs: Reimbursement will be made based on paid invoices/receipts. If nonexpendable property is purchased using State funds, the contract should include a provision for the transfer of the property to the State when services are terminated. Documentation must be provided to show compliance with Department of Management Services Rule 60A-1.017, Florida Administrative Code, regarding the requirements for contracts which include services and that provide for the contractor to purchase tangible personal property as defined in Section 273.02, Florida Statutes, for subsequent transfer to the State.
- (5) In-house charges: Charges which may be of an internal nature (e.g., postage, copies, etc.) may be reimbursed on a usage log which shows the units times the rate being charged. The rates must be reasonable.
- (6) Indirect costs: If the contract specifies that indirect costs will be paid based on a specified rate, then the calculation should be shown.

Contracts between state agencies, and or contracts between universities may submit alternative documentation to substantiate the reimbursement request that may be in the form of FLAIR reports or other detailed reports.
