

MEMORANDUM OF UNDERSTANDING

Station 11 ALS positions

In order to alleviate problems with swinging and keeping as many ALS assigned personnel at Station 11 as possible, the following is agreed to:

1. As Driver Engineers vacate their assignment for any reason, the position shall be bid as an ALS Driver Engineer position and receive the appropriate plus items.
2. In cases where the filling of positions in #1 results in more than two ALS Firefighter positions on each shift, the department will continue with the extra ALS position(s) until they are vacated, at which time they will be advertised as Firefighter positions (non - ALS).
