

TEMPORARY DRIVER/ENGINEER ASSIGNMENTS

Local 587 and the City agree that when Driver/Engineer assignments are vacated due to the "drafting" of permanently assigned Driver/Engineers, to other assignments (i.e.: Rescue, Fire Prevention Bureau, etc.), the Fire Department shall hold the position for the "drafted" member until they can return to the assignment or choose not to return.

When this situation occurs, the District Chiefs may assign from their district, temporary Driver/Engineers until the permanent member can return. Temporary Driver/Engineers, once checked out by the Driver/Engineer Instructor, shall be paid driver assignment pay. If the permanently assigned Driver chooses not to return, the position shall be advertised and bid for as specified in Assignment Procedures.

W.W. Bryson, President
IAFF, Local 587

Carlos Gimenez, Director
Department of Fire, Rescue &
Inspections

Date: 1/29/92
